

INTERVIEW SUMMARY

We conducted a telephonic interview with the Examiner on August 18, 2009. Present during the teleconference were Nicholas T. Peters, Nicholas J. Angelocci, and Examiner Vostal. During the teleconference, we discussed the claim language of impendent claim 1 with respect to the Broadhurst and Damashek references. Further, the Examiner suggested amendment of the word "request" to the word "query" to fit the use of the terms in the art. We also specifically discussed the teachings of the Damashek reference and the Examiner's application of it to the pending claims. No agreement was reached with regard to the pending claims. We thank the Examiner for his points of clarity provided during the interview.
